

MD Zahidul Islam

Engineer and founder. I built for a city in concrete, then for a country in code. Next, beyond it.

Dhaka, Bangladesh | +880 1927 564467 | engr.zahid404@gmail.com | linkedin.com/in/md-zahidul-islam-aumi | kormik.com.bd | dg-servebd.com

SUMMARY

I am an engineer who did not stop at handover. I started in concrete, as a project engineer on Bangladesh's first metro line, then crossed into technology through a graduate IT programme in Canada and an equity seat at an e-commerce agency back home. Kormik, my research and my startup, digitises the labour chain from tender to wage payment, so labour data becomes measurable instead of estimated. DG Serve BD puts software, websites, branding and marketing under one corporation, a one-stop tech solution for Bengali people in Bangla. Bangladesh is where they were built. Neither was built to stay inside one border.

CORE COMPETENCIES

Business development · Business-model design and market research · Financial reporting and sales tracking · Client onboarding · Product management · Go-to-market planning · Stakeholder and vendor coordination · Project planning and site supervision · Team leadership · Performance marketing

EXPERIENCE

Founder & CEO, Kormik

Dhaka | December 2025 – Present | kormik.com.bd

- Founded a digital labour-record platform for Bangladesh's informal workforce: verified worker ID, QR site attendance, digital wages and on-site micro-insurance.
- Designed the business model, unit economics and a three-zone Dhaka go-to-market; assembled and lead the founding team across field operations, tender relations and engineering.

Founder, DG Serve BD

Dhaka | May 2026 – Present | dg-servebd.com | BASIS member

- Founded a one-stop IT-enabled services company for Bangladeshi businesses and institutions: software, web and digital branding under one roof.
- Lead a multidisciplinary team across software development and digital branding; own strategy, pricing, client relationships and delivery standards.

Equity Partner & CTO, Dream Events Bangladesh

Dhaka | May 2026 – Present

- Lead technology for an event-management company operating across all 64 districts: internal systems, tooling and digital presence.

Head of Finance & Product Analyst, RoveUp

Dhaka | September 2025 – June 2026 | Shopify-first e-commerce and performance-marketing agency

- Owned accounting, financial reporting and sales tracking; ran client onboarding end to end with a profit share on every client I brought in.
- Product analyst across Shopify store builds, conversion-rate optimisation and email marketing for D2C clients.

Project Engineer, Alif Construction Limited

Dhaka Metro Rail (MRT Line-6), CP-03 and CP-04, subcontractor to Italian-Thai Development | November 2022 – February 2024

- Delivered public-realm works on Bangladesh's first metro line around its December 2022 opening: 318 m of footpath railing, landscaping and pavement tiling across two packages, and rain protection for platform glazing at Stations 5–6.
- Managed crews, materials, permits and inspections in live urban corridors with station operations, the main contractor and vendors; accountable for cost, schedule, quality and safety.

EDUCATION

Graduate Certificate in Information Technology, Algoma University

Brampton, Ontario, Canada | September 2024 – June 2025 | Final grade 80% | self-funded through part-time work

- Software Engineering Project Management, E-Business Strategy and Architecture, Systems Analysis, Software Engineering, Database Programming, Data Structures.

B.Sc. in Civil Engineering, University of Asia Pacific

Dhaka | December 2017 – July 2022 | First Class

- Thesis: Investigation of Shear Strengthening of RC Beams Using Steel Plate and Embedded Bar. General Secretary, Environment and Disaster Management Club.

RESEARCH

From Invisible to Countable: A Design Science Investigation of Digital Labour Infrastructure for Bangladesh's Informal Workforce | independent research, in progress, Dhaka 2026.

SKILLS

Technology: Python, Rust, PostgreSQL, machine learning and LLMs, Master in Claude (Anthropic), cryptography and cyber security (Tohoku University). **Engineering:** AutoCAD, ETABS, STAAD.Pro, SAP2000, ArcGIS, MS Excel. **Languages:** Bengali, English, Hindi.
